LAB-1 Programs

Q1. Write a program to show the difference between various heading tags. Make the font-size of "h1" heading 100px explicitly, and rest of the headings same as their default size.

Q2. Write a program to display the following in the middle of the Html document using suitable Html tag, except the center tag.

```
          *
         ***
        *****
       *******
      *********
     ***********
```
